

Typical Specification:

Furnish and install Brasch Heavy-Duty Forced Air Heaters, where specified. The heaters shall be constructed of heavy 18-gauge steel housing with an extruded aluminum frame. The rough-in dimensions are 19-5/16" high x 14-3/16" wide x 4" deep. The units shall be available in ratings from 750 to 4800 watts at 240, 208, and 277 volts. The heaters shall have a low-speed 600-RPM, 4-pole motor, which drives a vane axial blower to deliver a quiet 175 CFM of down flow air. The heating element shall be of the sealed tubular type with large, parallel steel fins for quick heat transfer. Unit shall have as a standard, a thermal overload cut-off for added safety, fan delay switch and built-in tamperproof thermostat which shall be calibrated to provide a range of 55 degrees F. to 85 degrees F. and manual disconnect switch.

Optional accessories shall include a surface-mounting adaptor, day-night relays. All heaters shall be listed by ETL Semko. The heating element shall be supplied with manufacturer's 1-year limited warranty.

Finish shall be powder coated bankers bronze color with aluminum frame.
